**JOINT STATUS REPORT**

Consistent with the discussions during the January 25, 2018 status conference in this docket, Frontier<sup>1</sup> and AT&T South Carolina<sup>2</sup> voluntarily have conferred to discuss the service issues alleged in Mr. LaColla's Complaint. Without waiving any defenses available to either of them, Frontier and AT&T South Carolina respectfully and jointly submit the following status report.

The Petitioner, Troy LaColla, has a residential address in Simpsonville, South Carolina which is located within Frontier's traditional assigned landline service territory. Frontier has available, and has offered, traditional landline telephone services to Mr. LaColla at his residential address; however, Mr. LaColla does not seek or request such regulated traditional landline telephone services. Mr. LaColla is seeking broadband services. Frontier does not offer broadband services to this location/area and does not have plans at this time to build or extend any existing facilities to this area. While Frontier may not offer such service at this time,

---

<sup>1</sup> Frontier Communications of the Carolinas, LLC

<sup>2</sup> BellSouth Telecommunications, LLC d/b/a AT&T South Carolina

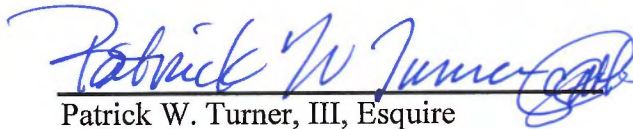

Frontier is aware that the existing market place does offer several options for wireless broadband service to Mr. LaColla from both cellular/mobile and satellite providers.

Mr. LaColla's service address is not within AT&T South Carolina's traditional landline service territory, and AT&T South Carolina currently has no plans to offer landline service at this address. Further, AT&T South Carolina is not aware of anything it could reasonably do with regard to its existing landline facilities in the area to help another service provider offer landline broadband service to this location. That said, AT&T South Carolina has confirmed that its affiliate, AT&T Mobility, offers wireless services in the area and that a strong wireless signal from AT&T Mobility is available at Mr. LaColla's service address.

Mr. LaColla, therefore, has access to wireless broadband services.

Respectfully submitted, this 27<sup>th</sup> day of February, 2018.
